Art Unit: 1623

Claims 11-32 are rejected under 35 U.S.C. 112, first paragraph, for the reasons set forth in the Office Action of 02/05/02.

Applicant's arguments filed 08/16/02 have been fully considered but they are not persuasive.

Applicants admit on page 35, lines 9-11 of their response that since the claimed methods are sufficient to treat the diseases, there is no basis to assert that those methods are sufficient to prevent the same diseases.

Claims 19, 21, 22 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis in claim 11 for the additional compounds encompassed by claims 19 and 21.

It is improper to use the term "comprises" (claim 22) with respect to a compound because it leaves the structural formula of the compound open-ended. It is not clear from claim 24, if the claim is limited to the specific compounds set forth or if it encompasses all the compounds of formula (I). Further, the names of the compounds set forth in claim 24 are not art recognized.

Claims 11-32 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Blohm et al (U.S. Patent No. 5,075,464).

Blohm et al disclose the use of androstene derivatives for the treatment of androgen-related disorders. The claimed methods are anticipated by Blohm et al. In

Art Unit: 1623

addition, if there are any differences between the claimed methods and the prior art method, the differences would appear to be minor in nature and the claimed methods, which fall within the scope of the prior art's disclosure would have been prima facie obvious from the said reference's disclosure to a person having ordinary skill in the art at the time the instant invention was made.

Applicant's arguments filed August 9, 2002 have been fully considered but they are not persuasive insofar as the above rejection relates to the claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
